### INSTALLATION

- 4 adjustable leveling feet
- 1 screw system at the top of each upright to fix to the wall using a centering washer.
- 1 slide system in the top of each upright to adjust the potential gap between the wall and the storage
- Bottle identification thanks to the EuroCave white marker, sold separately.

- Patented Main du Sommelier supports. Ability to accommodate all types of bottles, magnums or even Champagne.

- A specific "half-height" supporting arm (code OMS3) must be used whenever a customer wants to position a half-height storage beside his 2m one (see below).

- Three types of bottle positionings
