

Modulo-X

Modular and freely adjustable
storage system

GENERAL FEATURES

Materials

- Black powdered anodised aluminium (Ral 9005)
- Bottle supports in painted steel, black epoxy (Ral 9005)
- Black wooden shelves in black melamine 19 mm thick (Ral 9005)
- Withstands up to 300 kg, between 2 uprights

Dimensions

- Height: From 1.15m to 2.85 m for the floor-wall assembly
- From 1.70m to 3.40m for floor-ceiling assembly
- Width: 440 mm and 750 mm
- Depth of the bottle supports: 270 mm (excluding bottle size)

Bottle supports

- 6 supports with "Main du Sommelier"
- 3 shelves suitable for wine cases
- 4 types of bottle positioning: standing, tilted or lying down with or without labels visible
- Attachment by simple free positioning in the groove of the uprights, adjustable and repositionable, without limit
- Sold in sets of 2

Maximum capacity per column (2.90 metres high)

- Storage version: 23 levels / up to 207 bottles*
- Tilted presentation version: 14 levels / up to 126 bottles*

Integrated backlighting

Main du Sommelier

Attachment parts (registered system)

ACCESSORIES SUPPLIED

Lighting kit

- 200w power supply compatible with 4 uprights
- Remote control with a dimmer compatible for up to 10 transformers (total 40 uprights)
- 3m long LED strips / 3000°K (quantity defined according to the number of "uprights" ordered)

White marker

- Erasable, reusable

Assembly template

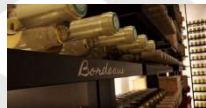

- Positioning distance between the bottle supports to ensure frictionless handling of the bottles
- Height: 82 to 163 mm

OPTIONAL EQUIPMENT

Identification plate

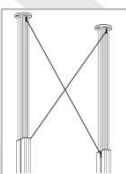

- Reference: ID PLATES-440/750
- Black tinted steel
- Fastened to the front of the bottle supports
- Delivered in sets of 6 plates
